EDUCATION

Benemérita Universidad Autónoma de Puebla (BUAP)   Puebla, México
- **Major:** *Computer Science and Engineering*   *Graduation date: May 2028*
- **Relevant Coursework:** Desing and Analysis of Algorithms, Data Structures, Discrete Math, Operating Systems, Differential and Integral Calculus, Object Oriented Programming, Software Engineering, Data Bases, Probability and Statistics

PROJECTS

Coursehub website | Hack Puebla 7ed Hackathon   July 2025
- Worked in a team of four, applying agile project management to deliver a functional prototype within 24 hours.
- Developed an accessible educational website using HTML, CSS and JavaScript, featuring an AI assistant by APIs.

Personal Server | Networking   June 2025
- Built and deployed a personal Linux based server using Cloudflare and Docker for secure and efficient service management.
- Configured DNS routing, SSL encryption and containerized applications to enable remote access and scalability.

Contact List App | OOP Project   December 2024
- Developed a contact management application in Java to strengthen object-oriented programming principles.
- Designed and implemented an intuitive user interface

COMPETITIONS

The ICPC International Collegiate Programming Contest   **2025**
- Participated in the 2025 ICPC Gran Premio de Mexico.

Code Rush   **2025**
- Participated in Code Rush TEC Puebla 2025

SKILLS

Programming languages and technologies
Proficient: Java, Git | **Intermediate:** C++, JavaScript, LaTeX, Docker | **Familiar:** HTML, CSS, SQL, Cloudflare
Languages:
Spanish (Native), English (B2), Japanese (N5)
